

Support a classroom. Build a future.

Public schools often lack resources for students to thrive. As a result, teachers are spending \$1 billion from their own pockets each year on supplies. DonorsChoose.org makes it easy for any individual to address this inequity, one classroom at a time.

You choose a project that moves you, and then hear back from the classroom with photos and updates. We validate the project request and purchase the resources for the teacher, so integrity is guaranteed.

You Give
to any classroom
project

We Deliver
the materials to
the class

Kids Learn
and show it in photos
and thank-you's

"You know exactly who you're helping" —Stephen Colbert
